Superintendent Tillson when asked about it said that it had passed the experimental stage and it is a decided success in many schools. It will cost about \$1,800 to introduce it, requiring about 20 benches with tools, the equipment costing about \$500, while the services of a teacher would cost \$1,200. He thought \$1,800 would be sufficient to start with and in subsequent years the expense of equipment will be lessened. It is intended
